

RUPESH KATUWAL

Frontend Developer

+977 9804077492 | rupeshkatuwal53@gmail.com | Pathari Shanishchare, Nepal

[GitHub](#) | [Portfolio](#)

CAREER OBJECTIVE

Detail-oriented Computing student with hands-on experience in frontend development using React.js, Tailwind CSS, and Node.js. Built multiple production-level projects including a healthcare platform and an AI-powered learning system. Seeking a Frontend Developer internship to build responsive, user-centric interfaces and grow under experienced mentorship.

EDUCATION

BSc (Hons) Computing

2024 – 2027 (Expected)

Itahari International College, Sundarharaicha-4, Dulari, Morang

- Relevant Coursework: Programming, Software Engineering, Web Development, UI/UX Design, OOP, Database Systems, Data Structures and Algorithms.

+2 Science

2021 – 2023

Shree Panchayat Higher Secondary School, Pathari Shanishchare-1, Morang

PROJECTS

MediCare – Hospital Appointment Management System

[React](#) | [Vite](#) | [Tailwind CSS](#) | [Node.js](#) | [PostgreSQL](#) | [Drizzle ORM](#) | [ZegoCloud](#) | [Khalti API](#)

- Architected a healthcare platform for appointment scheduling, patient management, and real-time doctor-patient video consultation
- Developed responsive frontend with role-based access control; integrated Khalti payment gateway and SMS/email notifications

GitHub: github.com/Rupesh09876/SYP---Frontend github.com/Rupesh09876/SYP---Backend

CodeCamp – AI-Powered Interactive Learning Platform

[React](#) | [Tailwind CSS](#) | [Node.js](#) | [MongoDB](#) | [Gemini API \(Gemini AI\)](#) | [Recharts](#)

- Engineered a full-stack e-learning platform with interactive coding challenges, AI-powered code reviews, and progress tracking
- Built scalable RESTful APIs with JWT and Google OAuth; integrated Monaco Editor and Recharts analytics dashboards

GitHub: github.com/Rupesh09876/CodeCamp

WorkBridge – Full-Stack Job Portal Application

[Java](#) | [JSP & Servlets](#) | [Jakarta EE](#) | [MySQL](#) | [Maven](#) | [BCrypt](#)

- Engineered a comprehensive job portal connecting job seekers and employers with role-based dashboards for Admins, Employers, and Job Seekers
- Developed robust backend using Java Servlets and Jakarta EE with BCrypt authentication; designed normalized MySQL database with full-text search optimization

GitHub: github.com/Rupesh09876/WorkBridge

Library Management System

[React](#) | [Tailwind CSS](#) | [Node.js](#) | [Express.js](#) | [MongoDB](#) | [JWT](#) | [Mongoose](#)

- Developed full-stack system with CRUD operations, borrowing/return tracking, and role-based dashboards for Librarians and Students
- Secured with JWT authentication and bcrypt password hashing; designed responsive UI with Tailwind CSS

GitHub: github.com/Rupesh09876/LMS

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML5, CSS, Java, Python

Frameworks: React.js, React Native, Tailwind CSS, Bootstrap, Jakarta EE

Backend & DB: Node.js, Express.js, Java Servlets, MongoDB, PostgreSQL, MySQL, Firebase, Supabase

Tools: Git, GitHub, Vite, Vercel, Render, Figma, Canva, Maven

Core: Responsive Design, Mobile-First Development, UI/UX Design, REST APIs, Agile Methodology

CERTIFICATIONS & ACHIEVEMENTS

- Full-Stack Web & Mobile Development (MERN Stack) – Innovation Lab, Itahari International College (Jun – Aug 2025). ([Certificate](#))
- Winner – Design Dynamo (UI Design Challenge), Creative Clash 2026, Itahari International College. ([Certificate](#))
- Hackathon Participant – [Komekusu \(KUMSC\)](#) and [Tech Frontier \(Word Fest 2025\)](#).

SOFT SKILLS & LANGUAGES

Soft Skills: Team Collaboration, Problem Solving, Communication, Time Management, Adaptability

Languages: Nepali (Native), English (Fluent), Hindi (Conversational)
